## IPCA Laboratories Limited

### Corporate Social Responsibility – Impact Study on CSR Projects

#### 1 Background of CSR obligation, Company's CSR vision and the CSR Project.

- a. The legal requirement in brief and the company's CSR management structure:

The new CSR rules with effect from April 1, 2021 mandate that Corporates now need to formally assess the Impact of their CSR projects. Large spenders such as Ipca Laboratories Limited hence require to do this study for the projects that were completed over a year ago. The Act further specifies that in order to maintain transparency, this study should be done by an Independent Party. For this purpose, the company has appointed M/s Nayan Parikh & Co., Chartered Accountants based out of Mumbai to study the impact of the CSR and report on the projects. The summary of the post assessment report is shared below.

- b. Company's Mission statement about its CSR obligation and various goals are given in the CSR Policy of the company. This also gives the composition of the CSR Committee, various activities included under the company's CSR Policy, areas of operation etc. For details of the CSR Policy refer **ANNEXURE – I**.

- c. The various CSR Projects undertaken by the company to achieve its goals:

The Company has undertaken various activities of socio economic relevance to achieve its goals as envisioned by the guiding CSR Committee. The composition of the CSR Committee and the details of CSR amounts spent on various projects in Financial Year 2022-23, which includes CSR expenditure towards the Project under study, are given in **ANNEXURE - II**

#### 2 About the agency conducting Impact Study and the need for Impact Study.

The Management has appointed Nayan Parikh & Co., Chartered Accountants to carry out the Impact Study and issue Report for all the Projects where the Company has spent more than Rs 1 Crore, as required by the CSR Rules.

Nayan Parikh & Co. (NPCO) is a firm of Chartered Accountants in Mumbai, India. Starting as a sole proprietary concern the Firm today has 8 partners. NPCO provides services in the fields of audit and assurance, and consulting keeping in mind the regulatory and commercial environment within which our clients operate.

NPCO's principled approach of coupled with ethical compliances enables it to discharge its professional functions dispassionately, with dignity and responsibility.

Partners and professionals are encouraged to meet the highest standards of efficiency, sincerity and integrity and to cater to the needs of the client in a time-bound manner without any compromise on quality of service and diligence.

One of the Partner who would be spearheading the Impact Study has more than 15 years of experience in conducting Social Audits in Industries and Farms across several States and reporting to the stakeholders, which makes the firm an ideal choice to

undertake and report on the Impact of the Company's CSR spend on Projects, wherever necessary.

In order to strategize and plan its CSR activities and to comply with the provisions of CSR Rules, IPCA has planned to carry out an impact assessment of the project – Amrit Sarovar and NPCO was empanelled to conduct the study.

### 3 About Project – Amrit Sarovar Yojana

Water is one of the most important natural resources. It is an invaluable gift from nature to the entire human race. Two-third of the earth is covered with water, but only two to three percent of available water is usable. Today, many countries of the world, including India, are facing acute water crisis.

Realizing the same problem, Hon'ble Prime Minister of India has called for the construction of 75 Amrit Sarovars (ponds) in each district of the country. Mission Amrit Sarovar was launched by the Prime Minister on 24<sup>th</sup> April 2022. Objective of Mission Amrit Sarovar is "construction/development of at least 75 Amrit Sarovar (ponds) in every district of the country". These Amrit Sarovars will be constructed on at least 1 acre of land with a water holding capacity of about 10,000 cubic meters. Total of at least 50,000 Amrit Sarovar will be constructed or rejuvenated in the country.

Amrit Sarovars are expected to play important role in increasing the availability of water, both on surface and under-ground. Development of Amrit Sarovars is also an apt symbol of constructive actions, dedicated to the country on the occasion of Azadi Ka Amrit Mahotsav, marking 75 years of Independence. This will create sustainable and long term productive assets, beneficial to both the sentient beings and environment.

For the effective implementation & coordination of Mission at the ground level, Committees will be formed at the State under the chairmanship of Chief Secretary and District level under the chairmanship of DM/DC respectively, with all the stakeholders involved.

All the information about the Amrit Sarovar Project and its updated status can be accessed at <https://amritsarovar.gov.in/login>

### 4 Evaluation and Methodology:

The evaluation approach has been designed in line with the objectives and scope of the project. A consultative approach for the impact assessment has been adopted. The findings are based on interactions with key stakeholders, supplemented by primary and secondary research, as per the project-specific research objective.

#### Process of Research

Selection of the Team

Review of Implementing Agency credentials

Review of need for intervention

Onsite visit and verification

On ground Interview

The research was conducted in the months of August 2023. The research broadly involves a review of the scheme of the Government and the process of implementation rolled out by them. A sceptical view was undertaken to ensure that the activity was not political in nature and all the stakeholders benefitted from it, irrespective of their standing, caste, creed, religion or political affiliation.

The website created by the Central Government to implement and monitor the project Mission Amrit Sarovar <https://amritsarovar.gov.in/login> was visited to understand process followed for construction of Amrit Sarovars.

The impact assessment team personally visited the sampled sites of Sarovar to assess the completion of the project and interaction was held with stakeholders, the implementation agency's representative and the Government appointed staff.

The Organization for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC), hereinafter referred as OECD-DAC, framework was used to evaluate the intervention support extended for the project.

OECD-DAC framework is used for evaluating performance of social development programs on relevance, effectiveness, convergence, sustainability and coherence. It helps in gaining qualitative understanding of the impact created, stakeholder perception, extent of collaboration with other actors and sustenance of the change.

The methodology followed for detailed evaluation is as given below.

**a. Objective of the Study**

The objective of the study was to assess the outcomes and impact created on the stakeholders covered under the program and the environment.

Impact assessment was undertaken on the following parameters:

- Whether the project was implemented as per the MOU
- Impacts created under the project
- Overall project performance
- Any challenges, shortfall, gaps in execution or evaluation of the program

The expected benefits from the study are as follows:

- Feedback from the beneficiary (Implementing Agency) about the direct benefits
- Assess the economic benefits in terms of increased and better facility for education and better medical infrastructure for people, particularly economically weaker section of society.

## b. Method of Evaluation

The study used the OECD DAC framework<sup>1</sup> for evaluating the impact of the CSR projects. OECD DAC has laid out six evaluation criteria – relevance, effectiveness, efficiency, impact, sustainability and coherence. These six

criteria serve as the core reference for evaluating international development and humanitarian projects, programs, and policies. These criteria provide a normative framework used to determine the merit or worth of an intervention (policy, strategy, programme, project or activity). They serve as the basis upon which evaluative judgements are made. These evaluation criteria have been defined below:

- **Relevance:** The extent to which the intervention objectives and design respond to beneficiaries' needs, policies, and priorities, and continue to do so if circumstances change.
- **Effectiveness:** The extent to which the intervention achieved, or is expected to achieve, its objectives, and its results, including any differential results across groups.
- **Efficiency:** Evaluating how well the resources are used and the extent to which the intervention delivers, or is likely to deliver, results in an economic and timely way.
- **Impact:** The extent to which the intervention has generated or is expected to generate significant positive or negative, intended, or unintended, higher-level effects.
- **Sustainability:** The extent to which the net benefits of the intervention continue or are likely to continue.
- **Coherence:** The extent to which the project is coherent and does not undermine other SDG.

The evaluation criteria are critically examined in the context of the project and evaluated by posing the right questions and seeking out the performance indicators to assess the impact of the intervention relevant to the criteria.

## c. Detailed Methodology

The impact study adopted a four-phase structured methodology for evaluation as illustrated below. The adopted methodology ensured that OECD DAC evaluation

<sup>1</sup> <https://www.oecd.org/dac/evaluation/daccriteriaforevaluatingdevelopmentassistance.htm>

criteria were followed throughout to effectively capture the impact of the programs.

- Program Inception & Desk Review
  - Desk Review of documents and reports related to the program
  - Determine the scope of study
- Research Design
  - Developing an impact map and scoring guidelines and overall rating criteria for the projects
- Data Collection
- Analysis & Reporting
  - Analysis of collected data using OECD DAC framework
  - Preparation of Report

**d. Program Inception & Desk Review;**

At the beginning of the study, NPCO consulted and gathered all the information about the program and reviewed the documents related to the programs. Documents reviewed included the request from Collector Office for participation in creating village talab in Ratlam District under the PM Scheme Amrit Sarovar Yojana. Since it was a Government initiated project that would also be monitored for implementation and maintenance as per their guidelines the transparency with which the whole eco system was set was reviewed. The Government had also invited public participation in their endeavour and urged companies to contribute from CSR funds towards this mega project.

**e. Research design**

After developing an understanding of the programs, NPCO in consultation with IPCA finalized the scope and boundary of the study. Enhanced understanding of the program helped in developing:

- Impact map
- Scoring Guidelines

**Impact Map:** To achieve the desired long-term changes, one needs to establish clear linkages between the project's activities and the desired impact. An Impact map is a representation of the workflow of the project and identifies the various aspects of project implementation, as mentioned below.

- **Inputs:** The financial, human, and material resources used for the development intervention by the company, implementing agency and other stakeholders.
- **Activities:** The actual work on ground, actions taken, or work performed

through which inputs, such as funds, technical assistance and other types of resources are mobilized to produce specific outputs

- **Outputs:** The products, capital goods and services which result from a development intervention and may also include changes resulting from the intervention which are relevant to the achievement of outcomes.
- **Outcomes:** Outcomes are the most likely or achieved short term, medium term or long term effects of an intervention.
- **Impact:** It is measured in terms of a significant change in the lives of the project beneficiaries due to the initiation of the project. It could be intended or unintended positive/negative, primary and secondary long-term effects produced by the project intervention, directly or indirectly.

Impact Map is a tool for describing or illustrating how and why a desired change is expected to happen by connecting the activities of the program with the outcomes, impacts and their contribution to achievement of the final goal.

An impact map for this project was developed as part of the study.

**Scoring Guidelines:** Subsequently, a scoring guideline was designed where OECD DAC parameters were scored and weights were assigned to each parameter to arrive at a reasoned conclusion for level of satisfaction. Various components within the parameters have also been assigned weights. Overall final score of the project on a maximum scale of 5 is also ranked on the same scale for satisfaction.

f. **Weighted Scores were then used to develop a 4-point scale:**

- 76-100 % – *Extremely satisfactory*
- 51-75% – *Satisfactory*
- 31-50 % – *Moderately satisfactory*
- <30 – *Dissatisfactory*

## 5 Executive Summary of Impact Study of CSR Project - Amrit Sarovar Mission

The intervention by IPCA has been successful in achieving its CSR objectives. This conclusion is reached after evaluating the project against parameters and the final score earned. The project score is 4.90 on a scale of 5, as provided in the table below, indicating extremely satisfactory implementation of the CSR project on the developed scale for Impact Assessment of the project.

OECD Parameters	Weight	Maximum Score	Final Score	Remarks
Relevance	20%	1.00	1.00	Extremely satisfactory
Efficiency	10%	0.50	0.50	Extremely satisfactory
Effectiveness	10%	0.50	0.50	Extremely satisfactory
Impact	30%	1.50	1.40	Extremely satisfactory
Sustainability	20%	1.00	1.00	Extremely satisfactory
Coherence	10%	0.50	0.50	Extremely Satisfactory
<b>TOTAL SCORE</b>	<b>100%</b>	<b>5.00</b>	<b>4.90</b>	

## 6 IPCA CSR Project Assessment – Detailed Study of Amrit Sarovar Mission

- a. One of the activities included in the Company's CSR Policy is ensuring environment sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources and maintaining the quality of air, soil and water.

IPCA's policy also permits contribution to the NGOs and Charitable Organizations, inter-alia, engaged in the above services.

The CSR Committee discussed the proposal received from the Collector's Office at Ratlam District, where IPCA's main plants are located. The project was welcomed and well appreciated by the CSR Committee. In view of the main manufacturing plants being in the District of Ratlam the Committee felt it was a very good opportunity for the company to return to the society where the company has grown over the decades.

The CSR Committee reviewed in detail the objectives of the Amrit Sarovar Mission spearheaded by the Government and the implementation guidelines and transparency that was brought about with the development of the website for the initiative. After detailed discussion the CSR Committee sanctioned an amount of up to Rs 110 lacs as contribution towards development of 5 Amrit Sarovars.

- b. **The Implementing Agency – MGNREGS (Mahatma Gandhi National Rural Employment Guarantee Scheme):**

The project was implemented by the Government under its MGNRES, the scheme which guarantees minimum employment to people.

This Mission was run with a "Whole of Government" approach in all its aspects. Accordingly a wide swath of Ministries/Departments and Organizations work together to accomplish the goals. Six Ministries agreed to participate in its planning and implementation.

For the effective implementation & coordination of Mission at the ground level, Committees were formed at the State under the chairmanship of Chief Secretary and district level under the chairmanship of DM/DC respectively, with all the stakeholders involved.

Adhyaksha/Collector/CEO will felicitate all such Gram Panchayats after construction/rejuvenation of Amrit Sarovar. The hierarchy was defined under the project implementation guidelines by the Government for successful implementation of Mission Amrit Sarovar.

**Objectives of Amrit Sarovar Mission:**

- i. Water is one of the most important natural resources. Two-third of the earth is covered with water, but only two to three percent of available water is usable. Today, many countries of the world, including India, are facing acute water crisis. Realizing the same problem, Hon'ble Prime Minister has called for the construction of 75 Amrit Sarovars (ponds) in each district of the country.
- ii. Amrit Sarovars will play an important role in increasing the availability of water, both on surface and under-ground. Development of Amrit Sarovars is also an important symbol of constructive actions, dedicated to the country on the occasion of Azadi Ka Amrit Mahotsav, marking 75 years of Independence, that create sustainable and long term productive assets, beneficial to both the living beings and environment.
- iii. Objective of Mission Amrit Sarovar is "construction/rejuvenation of at least 75 Amrit Sarovar (ponds) in every district of the country". Each Amrit Sarovar will have pondage area of minimum of 1 acre (0.4 hectare) with water holding capacity of about 10,000 cubic meter. All districts will develop at least 75 Amrit Sarovars totalling about 50,000 Amrit Sarovars in the country.
- iv. Mission Amrit Sarovar is expected to boost the rural livelihood as the completed Sarovars would help different activities such as irrigation, fisheries, duckery, cultivation of water chestnut and animal husbandry, etc. The detailed Guidelines on Mission Amrit Sarovar can be accesses at <https://ncog.gov.in/AmritSarovar/AmritSarovarGuidelines.pdf>

**c. Analysis and Findings**

The following impact map was developed for assessing the impact of this project

Input	Activity	Output	Outcome	Impact
<ul style="list-style-type: none"> <li>• Financial resources by IPCA and others</li> <li>• Time by IPCA the local Administration</li> <li>• Human Resource for superviso</li> </ul>	<ul style="list-style-type: none"> <li>• Assessing the need of the villages, identifying the spots for Amrit Sarovars, doing the technical and administrative feasibility.</li> <li>• Approval of</li> </ul>	<ul style="list-style-type: none"> <li>• Availability of water for agriculture.</li> <li>• Availability of water for fisheries</li> <li>• Availability of water</li> </ul>	<ul style="list-style-type: none"> <li>• Conservation of scarce water resources.</li> <li>• Lesser dependence on rain.</li> <li>• Availability of drinking water for other living</li> </ul>	<ul style="list-style-type: none"> <li>• Increase in agricultural activity and income.</li> <li>• Increase in other farm income</li> <li>• Improved economic and social conditions.</li> <li>• Reduces mental and financial</li> </ul>

Input	Activity	Output	Outcome	Impact
n by local Administration • Land by the District Administration	Plans by local authorities • Raising funds and deploying resources. • Taking the input from villagers, locals and other stake holders	for birds, animals and development of flora and fauna.	creatures. • Alleviation of poverty. • Use of soil excavated from sites.	stress of the villagers

**d. Evaluation Criterion :**

**Evaluation criterion 1: Relevance**

**Relevance** is a measure of the extent to which the program can or has been able to support the suited needs and priorities.

This is done to understand the extent to which the intervention objectives and design respond to the beneficiaries needs. The purpose of the analysis is to capture if the objectives and design of the project were sensitive to the needs of the beneficiaries and stakeholders covered. There is always severe shortage of water for plantations and fisheries. This impacts the villagers life by adding stress to their financial resources. Many of them end up borrowing money at high interest and get sucked into the vicious cycle of debt and debt servicing.

As a socially responsible corporate entity, IPCA endeavours to promote activities that contribute to the society by actively participating in projects of strategic importance. Since the Amrit Sarovar Project is the idea of the Central Government, where public participation in the nature of CSR activity has been appealed, IPCA considers the project to be of considerable social importance and allocates from its CSR funds for at least 4 Amrit Sarovars.

The **United Nations' Sustainable Development targets for 2030** call for **No Poverty** and **Zero Hunger** as the first two **Sustainable Development Goal (SDG)**<sup>2</sup>.

The United Nations Development Targets suggests what can be done by various stake holders. It states that Governments can help create an enabling environment to generate pro- productive employment and job opportunities for the poor and the marginalized.

The private sector has a major role to play in determining whether the growth it creates is inclusive and contributes to poverty reduction. It can promote economic opportunities for the poor.

<sup>2</sup> <https://www.un.org/sustainabledevelopment/>

SDG	SDG Targets	How is the project aligned
	<p>1.1 By 2030, eradicate extreme poverty for all people everywhere.</p> <p>1.5 By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters.</p>	<p>By providing water for agriculture and plantation, by conserving water bodies, the villagers in rural areas will be able carry out irrigation, fisheries, duckery cultivation of water chestnut and animal husbandry for earning additional income and also for personal needs.</p> <p>By providing water for fisheries pisciculture gets a huge boost. This will give sustainable income throughout the year for people engaged in this occupation.</p> <p>Locals agriculturalists will not get severely affected by the vagaries of climate change.</p>

 <p>2 ZERO HUNGER</p>	<p>2.1 By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round.</p> <p>2.3 By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment.</p> <p>4.7 By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development</p>	<p>The Amrit Sarovars will provide adequate water for local plantation to survive draught and help people become self-sufficient in nutritious food.</p> <p>The Amrit Sarovars can mitigate the risk of climate change and provide better support for sustenance during peak summer, when the village folks have to go miles to fetch water for themselves and their cattle.</p>
--	--	--

### **Evaluation criterion 2: Effectiveness**

**Effectiveness** is an assessment of the factors affecting the progress towards outcomes for every stakeholder and validation of robustness of systems and processes by assessing the utilization of the resources.

The criterion reviews the implementation strategy and mechanism. The purpose of this is to understand if the intervention has achieved its objective and the extent to which it did.

Under this project participation by IPCA the company paid Rs 1.01 crore for construction of 5 Amrit Sarovars. The first rains after construction has ensured that water is substantially stored at these Amrit Sarovars. The water is being used by the locals for their various needs and the activity has started to reap the benefits of the water bodies.

NPCO team together with the team member of IPCA visited these Amrit Sarovars. They were accompanied by the District administration staff and the contractor representative. The photographs of the various sarovars developed and visited by team is given in the **ANNEXURE III**

### **Evaluation criterion 3: Efficiency**

**Efficiency** criterion aims to measure if the project was implemented in a cost-effective and timely manner.

The purpose is to understand if the inputs (funds, expertise, time, etc.) were utilized efficiently to achieve the intervention outcomes. Factors such as budget utilization and timelines have been reviewed.

#### **Utilization of Budget**

IPCA had contributed Rs 1.01 Crore for construction of these sarovars in the Ratlam District, which is fully utilised by the District authorities.

#### **Project Execution as per Timelines**

The project was completed as per timelines. The Certificate of utilisation provided by the implementing committee is provided in **ANNEXURE IV**. Other information as published and shared on the portal and through media is given in **ANNEXURE V**.

### **Evaluation criterion 4: Impact**

**Impact** is measured in terms of the proportion of respondents who reported having a significant change in their lives due to the initiation of the project.

The purpose of measuring the impact is to ascertain the primary or secondary long-term effects produced by the project. This could be direct or indirect and intended or unintended. Unintended effects are effects that were not planned as a result of the intervention and can be positive or negative.

Impact addresses the ultimate significance and potentially transformative effects of the intervention. It seeks to identify social, environmental and economic effects of the

intervention that are longer term or broader in scope than those already captured under the effectiveness criterion. Beyond the immediate results, this criterion seeks to capture the indirect, secondary and potential consequences of the intervention. It does so by examining the holistic and enduring changes in systems or norms, and potential effects on the environment.

The impact of this intervention is immediate as well as sustainable in long term for the villagers in the vicinity. The villagers can grow crops and plantation more effectively and look out for other support income from fisheries and duckery.

Considering the factors above we are of the view that the intervention has created the desired impact.

#### **Evaluation criterion 5: Sustainability**

**Sustainability** as a criterion assesses the likelihood that project achievements will continue after the project. This includes an examination of the capacities of the systems needed to sustain benefits over time. The criterion analyses the resilience, risks and potential trade-offs.

The purpose of this criterion is to look at the longer-term effects of the intervention. Impact evaluations in the short term such as development of organizational quality and capacity that are likely to contribute to the sustainability of impacts for participants and communities in the longer term are expected to be almost certain. The benefits of Amrit Sarovar are sustainable in long term as Amrit Sarovar Portal and Mobile App developed by Bhaskaracharya National Institute of Space Application and Geomatics-National (BISAG-N) will be used for tracking the progress/ performance of Mission Amrit Sarovar in districts.

#### **Evaluation criterion 6: Coherence**

**Coherence** as a criterion assesses if the project is coherent across the policy cycle and the progress of the project does not undermine the progress on another SDG. Whether implementation of the project leads to meaningful collaboration and coordinated action across policy sectors (horizontal coherence), as well as between different levels of government (vertical coherence). Whether the project balances short-term priorities with long-term sustainability objectives.

### **7 Summary of Impact Study Score**

This impact assessment of IPCA's CSR project was carried out by Nayan Parikh & Co. The impact of this intervention is felt by the villagers in many ways. Amrit Sarovars emphasises on plantation through community participation around the sarovars. Birds, animals, fish and insect flourish with native plantation. The intervention has successfully contributed in providing permanent water bodies for agricultural activities and fisheries thereby increasing the earning capability of villagers and giving them greater economic power. The total score of the project is Extremely Satisfactory.

The final score on the basis of OECD parameters is 4.90 out of a maximum possible score of 5, which is Extremely Satisfactory.

OECD Parameters	Component	Weight	Score on 5	W S*	Weight	Final Score	Max Score	Remarks
Relevance	Assessment Report	30%	5	5	20%	1.00	1.00	ES
	Alignment to CSR Policy	40%	5					
	Alignment to SDGs	30%	5

## Corporate Social Responsibility Policy

We are in the business of developing, manufacturing and marketing of Active Pharmaceutical Ingredients and Pharmaceutical Formulations.

We believe that business should be profitable and beneficial to the society. We conduct our business ethically in a socially responsible manner. We are committed to protect the environment and provide safe working conditions at our workplace. We believe in safeguarding human rights and supporting communities and culture within which we work.

Premchand Godha  
Chairman & Managing Director

Date: 15<sup>th</sup> January, 2013

# Corporate Social Responsibility | 2014

---

## Mission statement

We are committed to operate our business with emphasis on Quality, Safety and Corporate Social Responsibility in all areas of our manufacturing and marketing operations. We will integrate our business values to meet the expectations of our shareholders, customers, employees, regulators, investors, suppliers and the community at large and take care of environment with best of our ability.

## Standard Code of business conduct

We understand that our business activities have varying direct and indirect impact on the society in which we operate.

We are committed to manage our business activities in a responsible manner. We are also committed to ensuring that our business activities are conducted in all respects according to applicable ethical, professional and legal standards.

We are committed to reviewing and continuously improving our corporate social responsibility programmes and encourage all our business partners and stakeholders to implement corporate social responsibilities appropriate to their area.

## The Committee

The Company has set up a Corporate Social Responsibility (CSR) Committee of the Board of Directors consisting of:

1. Mr. Dev Parkash Yadava – Independent Director and Chairman of the Committee
2. Mr. Premchand Godha – Chairman & Managing Director
3. Mr. Ajit Kumar Jain – Joint Managing Director
4. Mr. Prashant Godha – Executive Director

This Committee of the Board shall:

- a. formulate and recommend to the Board, a Corporate Social Responsibility Policy which shall indicate the activities to be undertaken by the Company;
- b. recommend the amount of expenditure to be incurred on the activities referred to in clause (a); and
- c. Monitor the Corporate Social Responsibility Policy of the Company from time to time.

# Corporate Social Responsibility | 2014

CSR activities mean and include but are not limited to:

- a. Projects or Programs relating to activities specified in below; and
- b. Projects or Programs relating to activities undertaken by Board of Directors of the Company in pursuance of recommendation of CSR Committee of the Board as per CSR Policy of the Company.

## Activities included under the Company's CSR Policy

- i. eradicating hunger, poverty and malnutrition, promoting preventive health care and sanitation and making available safe drinking water;
- ii. promoting education, including special education and employment enhancing vocation skills especially among children, women, elderly and the differently abled and livelihood enhancement projects;
- iii. promoting gender equality, empowering women, setting up homes and hostels for women and orphans; setting up old age homes, day care centres and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups;
- iv. ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources and maintaining quality of soil, air and water;
- v. protection of national heritage, art and culture including restoration of buildings and sites of historical importance and works of art; setting up public libraries; promotion and development of traditional arts and handicrafts;
- vi. measures for the benefit of armed forces veterans, war widows and their dependents;
- vii. training to promote rural sports, nationally recognised sports, paralympic sports and Olympic sports;
- viii. contribution to the Prime Minister's National Relief Fund or any other fund set up by the Central Government for socio-economic development and relief and welfare of the Scheduled Castes, the Scheduled Tribes, other backward classes, minorities and women;
- ix. contributions or funds provided to technology incubators located within academic institutions which are approved by the Central Government
- X. Rural development projects.
- xi. Contribution to the NGOs and Charitable Organizations, inter-alia, engaged in the above activities; and
- xii. Such other matters as may be prescribed from time to time.

# Corporate Social Responsibility | 2014

## Areas of Operations

This policy will be built on implementing, inter-alia, the following CSR activities for our stakeholders and community at large.

- Healthcare
- Safety
- Education
- Women Empowerment, Child Care and Support to Old Age
- Environment
- Protection of National Heritage
- Contribution to Nationally recognized Funds
- Contribution to Charitable Organizations and Trusts

### **Healthcare**

We are committed to implement programme of activities to achieve improvement in the health and general safety and wellbeing of society at large.

Illustrative areas of activities are:

- Eradicating hunger, poverty and malnutrition
- Promoting preventive healthcare and sanitation
- Making available safe drinking water
- Free Medicine distribution
- Medical checkups
- Medical camps

# Corporate Social Responsibility | 2014

---

## Review of CSR initiative

- a) Monthly reports by Corporate CSR Team to the CSR Committee of the Board
- b) HR head to summarize to the Board Committee event reports with photographs
- c) Audit of CSR activities to be done once every 6 month by Corporate Internal Audit.
- d) CSR activities undertaken in the Annual Report presentation.

## Scope of Applicability

This corporate social responsibility policy applies throughout the Company for all CSR activities undertaken.

## Code of Conduct

The code of conduct outlines the expected standards of behaviour and ethics in all our business, activities and is included as a condition of employment for all our employees.

- We recognize that social, economic and environmental responsibilities are integral to our business. We aim to demonstrate these responsibilities through our actions and within our corporate policies.
- We shall be open and honest in communicating our strategies, targets, performance and governance to all our stakeholders in our continual commitment to a sustainable development.

## Employee Social Service (ESS)

We encourage our employees to take part in social activities.

We shall support and encourage our employees to help local community organizations and activities in the local region and selected specified areas.

We will have a de-centralized operations and work place, with employee participation both in decision making and implementation.

More locally, we are open to greater community involvement and have links with local Universities and educational institutions, social organizations, medical fraternity, community groups, NGOs and society at large.

## ANNEXURE 2

**1. Brief outline on CSR Policy of the Company:**

The Company believes that contributing to the overall health and wellness of our world starts with lessening our impact on the environment and we remain committed to the highest ethical standards in everything we do - right from research and development to manufacturing, sales and marketing.

The Company's Corporate Social Responsibility involves initiatives on a micro level to include patient health, employee and public safety, nurturing of environment and building sustainable communities. The Company also engages with external stakeholders including healthcare professionals, investors, customers, non-governmental organisations and suppliers in this endeavour.

The Company is committed to operate its business with emphasis on CSR in all areas of its operations. The Company integrates its business values and operations to meet the expectations of its customers, employees, regulators, investors, suppliers, the community and take care of environment with best interest.

**2. Composition of CSR Committee:**

Sl. No.	Name of the Director	Designation / Nature of Directorship	Number of meetings of CSR Committee held during the year	Number of meetings of CSR Committee attended during the year
1.	Mr. Kamal Kishore Seth (appointed on 10.08.2022)	Independent Director and Chairman of the Committee	2	1
2.	Mr. Premchand Godha	Chairman & Managing Director	2	2
3.	Mr. Ajit Kumar Jain	Joint Managing Director	2	2
4.	Mr. Prashant Godha	Executive Director	2	2
5.	Mr. Dev Parkash Yadava (expired 02.08.2022)	Independent Director and Chairman of the Committee	2	1

**3. Provide the web-link where Composition of CSR committee, CSR Policy and CSR projects approved by the board are disclosed on the website of the Company:**

A definite and well structured Corporate Social Responsibility (CSR) policy has been framed by the Company and is available on its website (weblink: <https://www.ipca.com/wp-content/pdf/corporate-policy/2023/corporate-social-responsibility-policy.pdf>).

The CSR policy forms a part of the Company's corporate vision and defines its approach on key responsibility issues. The CSR spends on CSR projects made during the year and approved by the CSR Committee/Board are listed herein below.

**4. Provide the details of impact assessment of CSR projects carried out in pursuance of sub-rule (3) of rule 8 of the Companies (Corporate Social Responsibility Policy) Rules, 2014, if applicable (attach the report):**

In the financial year 2021-22, the Company had contributed an amount of ₹ 2.10 crores to Isha Outreach, a part of Isha Foundation as a part of Company's CSR spent towards Isha Outreach's Cauvery Calling movement focusing on planting about 2.4 billion trees along the Cauvery river basin over a period of 12 years, by means of tree-based agriculture approach for revitalizing the river. This CSR contribution of ₹ 2.10 crores made by the Company was used by Isha Outreach to distribute and ensure that about 5 lacs saplings are planted in the farmland belonging to the farmers along the Cauvery river basin in 29 districts of Tamil Nadu.

During the financial year under report, the Company carried out an impact assessment study of this Company's CSR spent.

**5. Details of the amount available for set off in pursuance of sub - rule (3) of rule 7 of the Companies (Corporate Social Responsibility Policy) Rules, 2014 and amount required for set off for the financial year, if any :**

Sl. No.	Financial Year	Amount available for set-off from preceding financial years (in ₹ Crores)	Amount required to be set-off for the financial year, if any (in ₹ Crores)

Ministry of Jal Shakti

**ANNEXURE - V**

## Target And Achievements of Amrit Sarovar

Posted On: 04 DEC 2023 6:13PM by PIB Delhi

Mission Amrit Sarovar was launched in April 2022, with an objective to conserve water for the future. The Mission aimed at developing / rejuvenating 75 Amrit Sarovars (ponds) in each district of the country, totaling about 50,000 Amrit Sarovars in the country.

This Mission has been run with a “Whole of Government” approach in all its aspects, with the participation from the Ministry of Rural Development, Ministry of Jal Shakti, Ministry of Culture, Ministry of Panchayati Raj, Ministry of Environment, Forest & Climate Change and organization named Bhaskaracharya National Institute for Space Applications and Geo-informatics (BISAG-N). Ministry of Railways, Ministry of Road Transport & Highways and other public agencies engaged for infrastructure project development are also engaged in the Mission for the purpose of use of soil/silt excavated out of the Amrit Sarovar.

The Mission was implemented through the States and Districts, through convergence from various schemes such as Mahatma Gandhi National Rural Employment Guarantee Scheme, 15th Finance Commission Grants, Pradhan Mantri Krishi Sinchayee Yojana sub schemes such as Watershed Development Component, Har Khet ko Pani, besides States’ own schemes and Corporate Social Responsibility (CSR) funds.

The Mission encourages mobilization of citizen and non-government resources for supplementing the efforts. It focuses on water conservation, people’s participation and proper utilization of soil excavated from the water bodies to boost infrastructural projects.

The target and the achievements in creating Amrit Sarovar in the country is as follows:

- i. Target: 50,000 amrit sarovars.
- ii. Total Number of sites identified- 1,09,901
- iii. Number of works commenced: 83,599
- iv. Number of works completed: 68,187

The performance/ achievements of the States of Andhra Pradesh, Gujarat and Jharkhand are tabulated below.

Sr. No.	State/ UT	Total Target	Total Number of Sites Identified	Total Number Of Works Commenced	Total Number Of Works Completed
1	Andhra Pradesh	1,950	5,100	3,911	2,196
2	Gujarat	2,475	2,650	2,649	2,649
3	Jharkhand	1,800	4,160	2,608	2,088

This information was given by the Minister of State for Jal Shakti, Shri Bishweswar Tudu in a written reply in Rajya Sabha today.
